Song Title: The Cycle

Verse I

Here we are a wondering
As our heads are circling
Another moment and then a year older
Do you see time is escaping

Chorus

And then you say to me
And could you possibly
Be the one for me
But you know I've heard it all before

Verse II

Do you see your future
One big roller coaster
And never do you think it's your fault
All alone in the bedroom

Chorus

And then you say to me
And could you possibly
Be the one for me

Solo

Chorus

And then you say to me
And could you possibly
Be the one for me
Be the one
And could you possibly

Be the one for me

But you know I've heard it all before
