Song Title: Apologies

Verse I

Do you ever listen
To your own point of view
So, so you said you're sorry
So, so you said you're wrong

Pre-Chorus

Hold it in another second and
Breathe one back
My heart attack
One, two, three
Your memory
And now it's gone forever

Chorus

I said what are, you waiting for
I said what are, you waiting for
I said what are, you waiting for
I don't know
Oh anymore

Verse II

And so we're through the stormy weather
And could I ever reconsider
So, so you said you're sorry
So, so you said you're wrong

Pre-Chorus

Hold it in
Another second and
Breathe one back

My heart attack

One, two, three

Your memory

And now it's gone forever

Chorus

I said what are, you waiting for

I said what are, you waiting for

I said what are, you waiting for

I don't know

Oh anymore
